PRISMAGUM

RUBBER COLOURING SOLUTIONS

Prisma Colour Ltd is the premier supplier of colour to the rubber industry. Our customers choose Prisma Colour because of our superior technical and application knowledge enabling us to offer a perfect match.

PRISMAGUM is available in chip or slab form and also as a fully dispersed masterbatch containing no pigment agglomerates: -

- PRISMAGUM-G - Chip
- PRISMAGUM-S - Slab
- PRISMAGUM-P - Pellet for automated dosing systems
- PRISMAGUM-X - Fully dispersed slab for printing blankets
- PRISMAGUM-F - Masterbatch for FKM

We offer a fully integrated manufacturing and laboratory capability which provides the highest level of responsiveness to our customers and is focused on meeting your needs and deadlines.

PRISMAGUM Colour masterbatch for the rubber industry: -

- Based on the rubber compound of your choice, including SBR, EPR and NBR
- RAL and Pantone shades available.
- Custom colour matching
- Special effects and additive masterbatches also available
- FDA and BFR conformity is achievable if required
- EVA bound pigment dispersions
- Dry powder blends and dry liquids
- From bulk supply to sachet packs

Contact Prisma Colour now and let us offer you the perfect match.
